

CLS, Joisting/Lintel and Framing

Our CLS, Joisting and Framing structural timber products are available in a variety of sections and lengths ideally suited to the requirements of modern methods of construction.

We also offer a range of high and low pressure preservative treatments which provide protection against decay and insect attack. Protim Frameguard is available from our Southern Terminal and adds enhanced performance of treated wood in fire.

CLS products can also be manufactured at the sawmill precision end trimmed to length (PET) for customers who use consistent volumes on a regular basis. This is further supported by our pack saw facility at our Humberside terminal which enables us to offer smaller volumes x-cut to length.

FEATURES	BENEFITS
PAR rounded four corners	For ease of handling
Strength graded to C16 In accordance with BS EN 14081	Provides guaranteed structural performance
Excellent quality wood fibre	Consistently high quality products
Kiln dried	Lighter in weight, stronger in application, protects against decay
PEFC certified	Ensuring products are sourced responsibly and environmentally with a robust chain of custody
Just In Time (JIT) pick a pack service	Maximum flexibility to help maintain optimum stock levels
Nationwide delivery service	A delivery service that allows our customers to access our products nationwide
In-house treatment facilities	High and low pressure treatment available, providing consistency and flexibility of service
Plastic wrapped on the top and four sides for protection	Ensures our products arrive in the best condition possible
Packaged to length	For ease of loading and storage
Wide range of sections and lengths	In line with customers requirements
Mixed loads	Maximum flexibility to mix and match products that suit our customers' requirements
Pack-saw facility at our Humberside Terminal	Provides flexibility, helps minimise waste and further processing in a factory environment
