

Engineered Wood Products represent a bold step forward, not only in terms of ease of use, excellent performance and cost saving characteristics, but also in the environmental credentials they offer to specifiers and end users.

The performance of Engineered Wood Products can be accurately predicted which means we can fine tune a design so that exactly the right amount of product is employed for any given situation.

Södra Wood is a leading supplier of Engineered Wood Products to the UK market and has a wealth of experience in the storage, handling and distribution of these high quality materials.

Södra Wood carries a wide range of standard and system based glulam sizes. These are available for just-in-time delivery from either the UK terminal in South Humberside (NHD) or the Ireland terminal in Wicklow (WTC), depending upon available specification. You can find the full range for each terminal overleaf.

In addition to landed stock sizes, Södra Wood can also supply a wide range of other dimensions and grades of glulam to order as below:

SPECIFICATION OF SPECIAL ORDER GLULAM BEAMS	
Grades	GL24C, GL24H, GL28C, GL28H, GL30C, GL30H
Species	Spruce or Pine
Finish	Industrial (one sawn face or PAR) and Visual
Thickness*	Minimum 38mm up to Maximum 280mm
Depths*	Minimum 80mm up to Maximum 1680mm
Lengths*	Minimum 2m up to Maximum 22.5m
Delivery	Direct to you or via the terminal
Availability	Typically 2 to 4 weeks depending on specification
Restrictions	Total min. order volume 5m ²

* Some thickness/depth/length combination restrictions apply

Notes

Full load orders (min 45m³) from landed stock are available on a 48hr Just In Time (JIT) delivery basis.

Split packs and pack cuts require an additional 3 day lead time.

Delivery of part loads will be subject to other orders being available to fill the vehicle, and may incur a part load charge.

All products are PEFC certified.
